Product Info:

- Incorporates two extra large bowls
- Ideal for hospitality projects
- 50mm wastes supplied
- Corrugated drainers
- Radius internal bowl corners
- Commercial grade 304 satin S.S.
- 32mm tap hole suits mixer taps
- Sinks are fully customisable where required

Suggested Tapware:

TW-PR-HM
Hob Mounted Dual
Mixer Unit

TW-PR-HMP
Hob Mounted Dual Mixer
Unit with Pot Filler

INSTALLATION NOTES

1) Cafe sink is generally top mounted in a joinery bench. 2) Cut out is 1830 x 470 which leaves a 5mm overhang on all four sides for mounting on bench top. 3) Fixing clips are tightened to locate and secure integral studs to the inside of the cutout. 4) A silicon sealant should be applied to the underside and outer perimeter of sink edge for additional sealing and securing.
