Wonderwork with Best Accuracy

Yu Shine was established in 1983 to design special application machine tools. Consistent technological progress and strict quality control has led our complete line of machine tools to be CE and ISO-9001 certified. We are known for precision, accuracy, and performance. Yu Shine machine tools are widely trusted by customers in Japan, Germany, USA, South America, Southeast Asia, and Europe – 38 countries in all! We offer a huge range of machine tools including our Heavy Duty Vertical Lathes, adapted to many different industries and applications around the world.

In 2007 we worked with world famous machine tool builders in Germany and Japan. Teamwork and technical exchange led to many advances in machine tool performance. Yu Shine also invested US\$6.8 million constructing a new 8800m² factory. Completed in 2007, this facility now employs 100 people. Integrating resources like this has helped Yu Shine achieve our full sales potential.

Yu Shine Vertical Lathes combine outstanding productivity and service to provide customers with a significant market advantage. We believe in achieving excellence and are always finding ways to improve. If you are looking for precision, innovation, excellent service, and a practical, sustainable approach to business, Yu Shine Heavy Duty Vertical Lathes are consistently ahead of the competition.

R&D and QC

R&D Strategy

Our R&D team maintains an outstanding design philosophy and solid track record of innovation. Devoted to forward thinking product development, progressive and innovative technology is fundamental to our corporate development. Yu Shine anticipates emerging demands from an ever evolving market and delivers timely solutions year after year.

QC Testing

Yu Shine is well known for extremely diligent quality control. From initial prototype development, to final product delivery, strict testing at each stage is required before moving to the next. Careful attention to detail means defect free machines.

Renishaw XL-80 Laser Measurement System

Accurately tests linear, angular, straightness, squareness and flatness measurements, as well as calibrates rotary axes to within ± 1 arc second accuracy.

Standard Accessories

HEAVY DUTY VERTICAL LATHES

▲ Air Conditioner for Spindle Gearbox

▲ Hydraulic Unit

▲ Dual Speed Gearbox

▲ Auto Lubrication System

▲ 4 Jaw Manual Rotary Table

▲ Rotary Table Transmission

▲ Fanuc Control System

▲ Crossrail Clamping System

▲ ATC Magazine

▲ Automatic Balancing System

▲ Crossrail Hoist Motor

VL-3000ATC+C

C Axis

Power spindle combines the spindle motor and a 2 step transmission to provide powerful face milling, end milling, drilling, tapping and grinding.

CF Axis

High resolution servo motor with precision worm and worm gear assure high precision indexing up to 6 arc seconds. A second power spindle for multi-side machining and complex parts machining (e.g. cam) is also available. Turning, milling, drilling and tapping are accomplished in a single set up. This greatly reduces workpiece set-up time and saves machine related costs.

C-Axis Performance Chart

VL-1000 / 1200 / 1600 series
Fanuc-α8 (7.5/11 kw)

VL-2000 / 2500 / 3000 series
Fanuc-α12 (11/15 kw)

VL-2000 / 2500 / 3000 series
Fanuc-α15 (15/15.8 kw) – Optional

Multi-function Machining

Equipped with a second power spindle, the C and CF axes provide turning, face milling, side milling, drilling, grinding and tapping operations all in a single set-up.

Face Milling

Boring

Tapping

Grinding (Optional)

Drilling

Side Milling

Optional Accessories

+APC

Improve vertical workpiece clamping times and overall efficiency by adding an automatic pallet changer to your heavy duty vertical lathe. Yu Shine has the years of research and development of automation equipment needed to satisfy all your production needs.

Optional Accessories

▲ ATC 30T / 60T / 90T

▲ Active Workpiece Checking

▲ Active Tool Checking

▲ Tool Holder

▲ 3 or 4 Jaw Power Chuck & Hand Chuck

▲ Crossrail Navigation System

▲ Paper Filter

▲ Hirth Coupling Tool System

▲ Linear Encoder

▲ Air Conditioner for Electrical Cabinet

▲ Siemens Control

▲ Magnetic Chuck

▲ 3 / 6 Jaw Power Chuck
