

Drum Lifter & Tipper / 364kg Capacity / Forklift Attachment

Convert your existing forklift, walk behind electric or manual stacker into a drum handler. We have had specially designed this attachment to now take both steel and plastic drums. This barrel lifter is ideal for liquid transportation of oil, chemical, fuel & food allowing the user to be able to pour them without manual labour required, helping to reduce injuries in the workplace.

Features

- All steel construction
- Compatible with steel and plastic drums
- Attaches easily to your existing equipment
- Powder Coated yellow for hi visibility and extra protection from wear and tear
- You can control the drum pouring process through the pull chain, meaning you do not have to leave the forklift to pour.
- The drum attachment is easily attached to your lifting aid by two clamps that secure it to the forks, it features an eye hook allowing for a safety chain and the barrel/drum is secured by double latches.

Specifications

Model		MHK285A
Capacity	(kg)	364
Drum Size	(mm)	570-600

Fork Size	(mm)	180x65
Net Weight	(kg)	70
