

DISPLAY

ESSENTIEL

6MCV5LS - 10MCV5LS

DESIGN

Self-service display unit with 4 to 5 shelves inclined at a 5 ° angle to maximise viewing of the products.

Panoramic view with low shelves and side windows.

Stainless steel fabrication with base in black epoxy.

FEATURES

Keeps all products at a core temperature of between + 63 ° C and + 70 ° C (poultry packed under plastic shells, in bags or different snack packaging) in order to comply with food safety requirements, whilst respecting the organoleptic qualities required for the food safety of consumers regardless of where placed on the presentation shelf.

Low electric power with connection under 230 volts so that units can easily be moved to different locations in the store.

Energy optimization.

Lighting on each level by halogen lamp.

Original design with combination of a cylindrical air blowing turbine and radiant heaters.

FINISHES

Standard model in black epoxy.

A choice of other colours are available.
