

STAND-ON REACH TRUCK

NRS-CB1 Series

Capacity: 1.0 to 3.0 ton

DESIGNED FOR EFFICIENCY, ENGINEERED FOR PERFORMANCE

Longer - Lasting Performance, Improved Safety and Comfort.

The Cat® NRS-CB1 stand on reach truck is our next evolution of forklift trucks, engineered from the ground up with your warehousing needs in mind.

Our Latest Innovations Include:

- LCD Display Panel: Get tasks done quicker, accessing customisable adjustments on-the-go.
- ECO Mode: Extends operating times, providing up to 21% improvement from previous model.
- Stability Enhancements: Intelligent systems automatically detect movement and load, automatically improving stability.
- Enhanced Safety Features: Improve safety records by preventing unauthorised access and enhancing stability with intelligent, automatic stabilisers.
- Improved Comfort: Enhancements to driver comfort and accessibility, improving operator productivity.

BOOST PRODUCTIVITY

In a warehouse, productivity is the key to profitability. The NRS-CB1 series introduces a selection of features that will seriously boost productivity - so your operators can get more done, with less time and energy.

Precise, Perfect Response

Utilising a convenient administrator screen, service engineers can adjust the operation feeling of the forklift to perfectly match the task at hand.

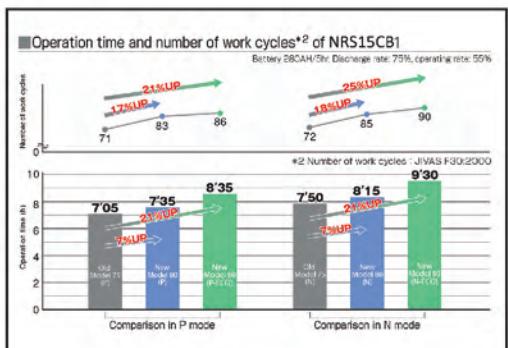

- Customise the acceleration and response rates of the forklift.
- Choose from 3 custom settings
- Strike the perfect balance between speed, precision and safety

Go The Distance With ECO Mode

When warehouse operations go into overtime, so too does the Cat NRS-CB1, thanks to an energy saving ECO mode.

- Activates with a simple tap of the ECO mode button
- Achieves a 15% reduction in overall power consumption
- Extends operating cycle by up to 21%.

ENHANCE DRIVER SAFETY

Your operators are the backbone of your business, and deserve to be well taken care of. The NRS-CB1 makes driving easier and safer with a more solid, stable design. And when operators are overwhelmed, the NRS-CB1 takes charge - proactively making corrections to stabilise the vehicle and keep its operator safe.

Unshakable Stability

The Cat NRS-CB1 stand-on reach truck features improved stability and safety, with intelligent systems that stabilise the forklift when loads are less than perfectly balanced.

- Smart systems detect stability issues and proactively rectify the vehicle's balance.
- Features improvements in horizontal stability and anti-slip capabilities.
- Maintains a high level stability on rough roads, during turns and while lifting loads.

Solid, All-Around

Improved mast rigidity allows for smoother, safer and more energy-efficient operation.

- A reinforced outer mast and shock absorbing structure reduces mast swing and irregular movements.
- Energy-efficient design.
- Additional stability gives forklift operators the confidence to get tasks done quicker and more safely.

ALWAYS RELIABLE

When operating lift truck, you want machines that work as they should - reliably, efficiently and without fuss. The NRS-CB1 delivers with advancements that make this the most fuss-free ride you have ever used.

LCD Positive Display

LCD Negative Display

Advanced Screen Technology

An improved LCD screen give operators much better visibility of their operation displays, whether in the dark indoors or brightly illuminated outdoor areas. Operators can choose from negative or positive display options, depending on their environment.

Anti-Slip Control

With an intelligent anti-slip control system installed in every NRS-CB1forklift, operators can work more efficiently and reliably than ever - even while carrying heavy loads over rough or slippery surfaces. The smart system automatically snaps into action when needed, minimising or eliminating potential slips, skids or tilts.

Presence Switch

A dedicated presence switch, located under an operator's feet, determines if an operator is present while the forklift is in operation - automatically disabling travelling and hydraulic functions if a driver is not on the vehicle.

Passcode Security System (Optional)

An easy-to-use passcode entry system ensures that only authorised personnel can operate the NRS-CB1forklift. This simplifies warehouse security processes, while improving safety and security standards.

A COMFORTABLE RIDE

Improved driver comfort leads to increased productivity, especially during long days. We have listened to driver feedback and redesigned the most crucial components of the NRS-CB1 forklift. Now, every button, wheel and handle is ideally within reach, perfectly positioned and comfortable for use for a quick 15-minute task, or throughout an entire shift.

INCLINED STEERING WHEEL

An inclined steering wheel making steering the NRS-CB1 a breeze.

ACCESSIBLE HANDGRIP

The ergonomically designed, repositioned handgrip is now perfectly located for safety and easy accessibility.

COMFORTABLE WAIST PAD

A high waist pad offers better comfort, especially during extended usage.

XL STORAGE COMPARTMENT

The NRS-CB1 is equipped with an extra-large storage compartment that's practical for storing everything operators need to complete their day's tasks.

LOW FLOOR HEIGHT

The NRS-CB1 has a low floor height of minimum 265mm. This makes getting on and off the truck quick, easy and safe - perfect for fast-moving environments and warehouses.

Lift Plus Powertrain Warranty *(optional)*

Confidence you can depend on - Cat Lift Trucks are covered by one of the best powertrain warranties in the business. When you choose a Lift Plus warranty for your new Cat lift truck, you're getting long term protection against powertrain failures, which guarantees that if any major powertrain component fails, it will be replaced... it's that simple. And all Lift Plus warranty repair uses only genuine Cat lift truck parts.

Dealers You Can Depend On

Cat lift trucks dealers are unsurpassed, delivering superior customer service that sets us apart from the competition - before, during and after sale.

Our dealers make available leading support programs with every new Cat lift truck you purchase, including:

- Genuine Cat lift truck OEM parts
- Planned Maintenance
- Rental fleet availability
- Convenient dealer branch locations

Planned Maintenance

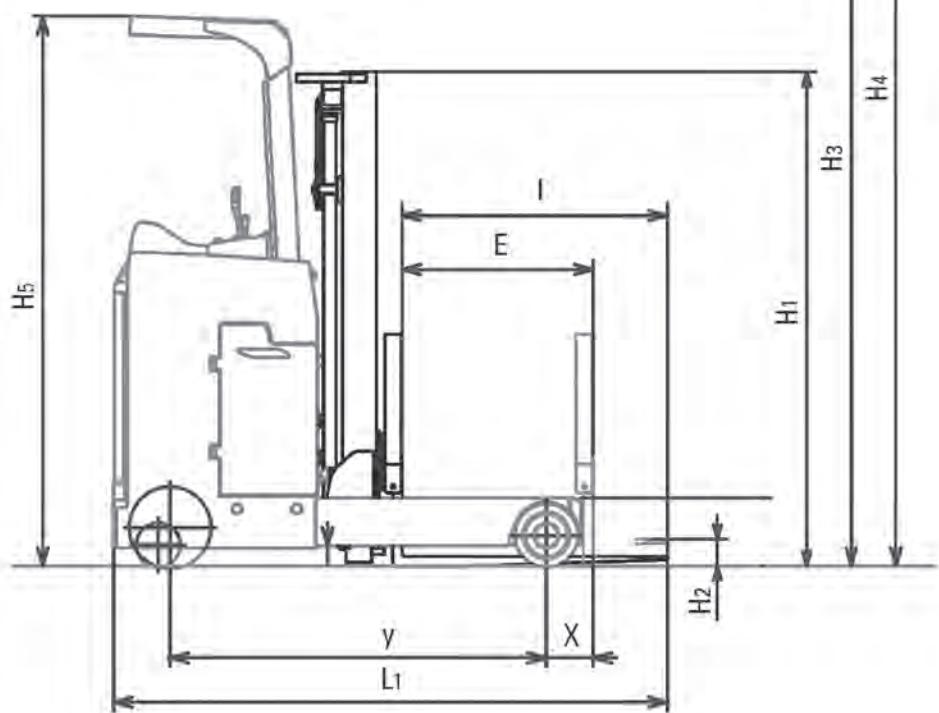

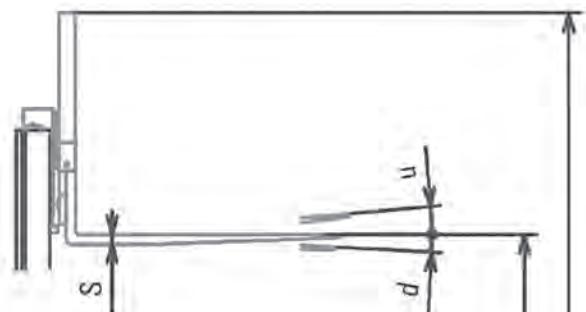

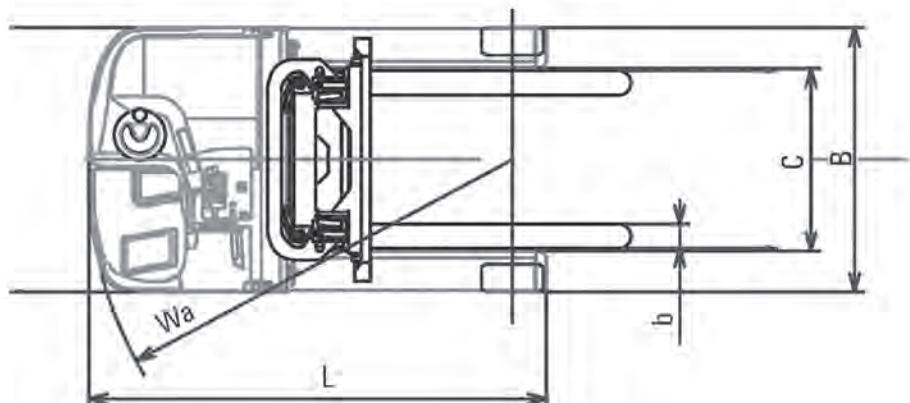

Proper maintenance of your truck helps assure top performance over the long haul and helps extend truck longevity. That's why every Cat lift truck is backed by experienced and reliable dealers who make sure your truck is properly maintained. With Cat lift truck planned maintenance, you won't have to worry about scheduling maintenance or unexpected downtime. Regular planned maintenance calls are scheduled in advance to avoid interference with your operating schedules. Experienced Cat lift trucks service technicians will regularly perform all periodic maintenance including fluid and lubricant check for a predetermined rate. We'll even identify and fix potential problems before they become major difficulties.
