Airex Balance Pad

BALANCE PAD

The Airex Balance Pad, with its smooth surface, is ideal for starting with barefoot balance training. Due to the yielding foam, the body is continuously challenged to maintain balance and stabilize the joints.

Due to the comfortable, smooth surface, the Balance Pad is not entirely slip-resistant on smooth floors.

The Airex Balance Pad Elite and Solid is the further development of the proven Balance Pad. Its unique waffle texture on the upper and lower sides is slip-resistant on the one hand and simultaneously provides pleasant stimulation of the foot receptors during barefoot balance training, on the other hand.

AIREX®

**WAFFLE-LIKE
TEXTURE**

KEY FEATURES

- Ultimate comfort and training effect: insulating, soft, warm with excellent high destabilizing properties
- For all kind of therapeutic and training applications
- Physical and mental multi-functionality
