Custom Solutions Available

About

- + The Double Round Bale Fork is an increased capacity version of one of Kerfab's most popular attachments, the Round Bale Fork, and makes light work of bale stacking
- + Safely and securely transports two round hay bales of any size simultaneously for double the efficiency
- + Versatile tines can either pierce bales on the flat side or slide under the bales to support them, preventing bale movement or rotation during transportation or stacking
- + Bale forks available in 4/5 spear models
- + Kerfab's range of hay forks have been designed to maximise visibility for increased safety
- + Compatible with ag loaders and telehandlers
- + Quick hitch compatible
