

# AusVac

## S2 Single Phase Industrial Vacuum Cleaner

The S2 is a small and compact industrial vacuum cleaner designed for wet and dry application. It is equipped with 2 bypass motors, and a 30L container which can be easily removed and emptied. Reverse air jet-pulse filter cleaning prevents dust from clogging the filter and therefore maintains a smooth airflow. Ergonomic design and castor wheels allow for transportation with ease.

- ✓ Sturdy steel frame and construction
- ✓ Easy to move around from job to job
- ✓ Can handle wet and dry debris
- ✓ Container release system for easy disposal
- ✓ Reverse air jet-pulse filter cleaning
- ✓ Complete steel construction of motor house, allowing superior heat diffusivity

MODELS	S23
Power	220v, 50/60Hz
Vacuum(mbar)	230
Max airflow (m <sup>3</sup> /h)	400
Filter cleaning	reverse air "jet-pulse"
Filter type	"H" class filter cartridge
Filter area(cm <sup>2</sup> )	32,000
Filter capacity	99.7% 0.3um
Dimensions (mm)	450*500*945
Weight (kg)	32
