# CMC S18FR-D

monitor  
Access

The CMC S18FR-D is fully hydraulic, featuring one pantograph, two telescopic boom extensions, and an articulating jib.

With an incredible 11.15 m of horizontal outreach and a 230 kg basket capacity, the S18FR-D is an ideal machine for arbor work, property maintenance, painting, and more.

With a user-friendly design, the S18FR-D is towable on a 3.5T GVM trailer, thanks to a weight of only 2,580kg, and still has the ability to fit through a standard doorway, making it the ideal machine size for many industries.

Equipped with a radio-controlled remote, auto-leveling outriggers, and two-speed drive, the S18FR-D adds a whole new dimension for the operator, allowing them to view each side of the machine when operating, which improves overall safety.

Additionally, thanks to the powerful 14HP Kubota diesel engine, the S18FR-D allows you to operate up to three functions simultaneously.

# Technical Specifications

<b>Max working height</b>	<b>17.78 m</b>
Max platform height	15.78 m
<b>Max horizontal outreach (with 80 kg)</b>	<b>11.15 m</b>
Max rated capacity	230 kg
<b>Weight</b>	<b>2580 kg</b>
Basket dimensions	1.4 x 0.7 x 1.1 m
Basket rotation	±90° (options)
Turret rotation	±178° (356° non-continuous)
