- 17 One Button Chair Positioning
- 18 One Button Entry / Exit Height
- 19 Adjustable Height Settings
- 20 Disassembles into two sections, offering improved storage and portability

Best Practice Care

Safety First

- **Custom Entry/Exit Height Function:** Set the exact safe transfer height for each resident. Effective across a large range of user heights.
- **Ultra Low Height:** Market leading 100mm low height whilst maintaining full ground clearance.
- **Attendant Control Panel:** Allows caregivers functional control and the ability to lock out certain bed functions from being operated via the handset.
- **Underbed Clearance:** Full clearance under the bed minimises the risk of cord impingement and protects flooring from damage.
- **SmartDescent:** Bed lowering speed is reduced once the bed reaches 300mm maximizing carer potential to remove obstacles as the bed lowers to the floor.
- **Underbed Lighting:** Creates a gentle halo around the bed to reduce falls risk and improve carer safety.

Clinical Considerations

- **Backrest Auto-Regression:** Reduces shear forces on the spine and sacral regions. Minimizes abdominal compression when back is raised supporting cardio pulmonary and respiratory function.
- **One Touch Chair Positioning:** Improves social interaction, assists respiratory and cardio pulmonary function and creates a comfortable position for sitting, dining and transfers.
- **Integrated Bed Extension:** 100-200mm length extension is easily operated and ensures a large range of user heights will fit comfortably without compromise.
- **Trendelenburg (and Reverse):** Augments patient positioning, comfort and assists with bed mobility*.

*Carers should seek advice from a trained Allied Health professional for correct manual handling techniques.

Interior Styling

Contemporary Designs

Choose from our contemporary standard bed ends and sides; made to order styles; or completely bespoke designs of your choosing to meet any interior design requirements.

The FLX bed offers a suite of aesthetic options from our subtle Como Radius bed ends (standard) and side panels, to custom shapes and finishes.

Standard Bed Ends – Como Radius

Standard Side Panels

Custom Bed Ends Designs

Tallo
Generous outer frame and recessed inner panel with void for a luxurious aesthetic and a softer modern silhouette. Timber or laminate.

Eyre
Elegant frame and recessed inner panel with curved void detail creates an aperture to the surrounding room. Timber or laminate.

Como Curved
Sweeping curves provide a gentle aesthetic to compliment a robust outer frame design. Timber or laminate.

Sophia
Luxurious upholstery and subtle lines provide a gentle aesthetic to compliment interior design accents. Timber or laminate.

Bespoke Finishes

Don't see a design that suits your needs? We can customise as required to incorporate your choice of material, colour, finish, size or shape and match any interior design specifications.

Performance and Durability

- **Quick Swap Actuators:** Allow for quick and easy inspection and maintenance, minimising downtime.
- **TiMotion Electronics:** Medical grade electronics from a leading global manufacturer.
- **Control Box:** Easily accessible beneath the back rest panel for efficient servicing.
- **Quick Connect Bed Ends:** Simple and quick to set-up upon bed installation. Easily removed for access or maintenance.
- **Wall Buffer:** Length adjustable to suit room configuration.
- **Width Extension Kit:** Ability to increase a single to a king single, ideal for resident changes in a facility.
- **EasyMove Transport System:** Facilitates safe no-lift transportation and movement of beds, as well as safe and easy access underneath the bed platform for routine inspection and maintenance.
- **Cable Conduit:** Allows other cables like air mattress power cords to be safely tucked away, preventing trip hazards and cord damage.
- **High Performance Twin Castors x 8:** Head end total locking (x2), foot end central locking (x4).
- **Respite Ready:** Generous 275kg SWL facilitates care of bariatric residents and augments standard bed assets to facilitate respite care.
- **Pull Apart Capability:** The bed can be disassembled into two sections, offering improved storage and portability.

Accessories

- 1. Full Length Rails**
BEB048785 - Sublime Teak
BEB048790 - Milano Walnut
BEB048796 - Custom
BEB0486620 - Bed End Hard Ware Custom
End to end prevention of falls. Includes both left/right sides. Easily lifted by hand, collapse to lowest position beside the bed platform.
*Bed ends sold separately
- 2. Bed Rail Protector** BEA010778
Breathable soft mesh bed rail protector reduces fall risk while maintaining airflow.
- 3. EasyMove Transport System** BEA030055
Is an ideal transport solution designed to minimise manual handling. It allows effortless lifting and tilting of the bed to its transport position, while the large 100mm castors offer smooth and easy manoeuvring for one person. The EasyMove is also a perfect maintenance platform facilitating easy access to mechanical parts under the bed platform.
- 4. Split Folding Grab Rails (Pair)** BEB046525
Left/Right pair of moulded rails provides manoeuvring and repositioning assistance to a resident. Can be positioned at the head end or foot end. Folds down to lowest position beside the bed platform.
- 5. Self Help Pole** BEA829140
Self Help Pole Mounting Bracket BEA829145
Provides a firm support handle for improved bed mobility.
- 6. IV Pole** BEA029710
IV Pole Mounting Bracket BEA829145
- 7. Folding Assist Bar (Single)** BEB046520
Provides manoeuvring assistance to a resident. Folds down when not in use, out of the way of transfers.
- 8. King Single Conversion Kit** BEB046505
Allows conversion of a Single FLX into a King Single.
- 9. USB Port Upgrade Kit** BEB046616
Add USB charging functionality to the side of the bed, perfect for charging mobile phones and tablets.
- 10. Handset Holder** BEA030030
Mounts discreetly behind the head board for easy access and improved room aesthetics.
- 11. Directional Castor** BEB046630
Replaces total locking castor at the head end for improved bed tracking during bed movement.
- 12. Battery Backup** BEB046592
Prolong bed operation by up to 15 lifts during a power outage.
