Skope ITV ALFA NDP20 A Self-Contained Ice Cube Maker

ITV ALFA under-bench ice makers are an efficient way to incorporate an ice cube maker into a commercial kitchen or bar, without taking up additional floor space. ITV ALFA ice makers produce pure, crystal clear ice cubes every time. The pyramid shape cubes cool drinks quickly and melts slowly-suitable for bars, restaurants, pubs and nightclubs.

Commercial Fridge and Freezer Sales Australia. All product images are provided for illustration purposes only. All specifications are subject to manufacturer changes without notice, so please check on the manufacturer's website for current product data.

producing crystal clear ice cubes

- Only the purest of ice cubes are produced
- Robust folding door for long-life and durability
- Insulated storage bin with polyurethane foam insulation gives higher rigidity with lower heat transmission
- Front breathing ventilation for tighter space, allows machine to be built in
- Strong AISI 304 stainless steel frame. Easy servicing operations without disassembling the whole machine
- Silent rain system, all parts in contact with water have been designed to minimize their friction resulting in a very low noise level
- Easy access to top operational switches
- Trusted SKOPE 2 Year Warranty Protection Plan

ITV self-contained Ice Makers offer superior energy efficient solutions that respond to the needs of demanding food service, grocery and hospitality industries. ITV is at the forefront of technology and advancement of ice maker development. The SKOPE – ITV relationship will greatly enhance the customer experience by providing customers with quality ice makers and the latest technology in European style.

To ensure correct operation and meet SKOPE warranty requirements, the ice maker must be installed with a suitable water filter.

Additional Information
