1.75 Lt water tank that is removable for fast filling / emptying.

Twin pick-up to remove dirty water from floor.

1 Lt recovery tank to collect dirty water. Lifts out to empty.

Easy finger release brush system.

Inbuilt wheels on side for easy transporting.

Duplex® 280

Designed for small commercial or domestic use; the Duplex 280 is a scaled down version of the Duplex commercial range (340, 420, 620) that have been regarded as the world's most versatile floor cleaners for 20 years.

Featuring the same patented dual cylindrical brush, two way handle and offset brush design of the larger models; the Duplex 280 provides exceptional cleaning results, efficient cleaning times, unrivalled manoeuvrability and excellent versatility in cleaning all types of floors.

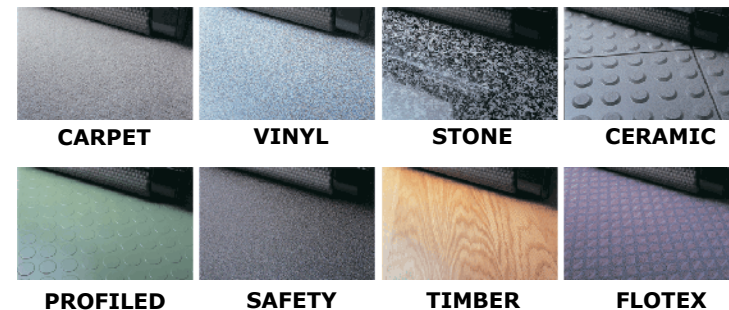

RIGHT TO THE EDGES AND INTO THE CORNERS

The unique offset brush design combined with a two way handle actually allows cleaning right to the edge of the wall and into the corners in both directions

IDEAL ON ALL FLOORS

Whether it be in a home or small business; the Duplex 280 provides a complete cleaning solution on all hard floors including profiled surfaces and short piled carpets. Therefore the Duplex can eliminate or reduce the need for mops, scrubbers and carpet cleaners.

EASY TO OPERATE

The compact size and dual contra-rotating cylindrical brush design of the Duplex results in feather-light, single handed operation with manoeuvrability that is unequalled.

TIME IS MONEY

Where mopping an area of 400m² takes about 2 hours to complete; the Duplex 280, with a cleaning efficiency of up to 550m²/h, can deeply clean the same area in about 40 minutes as it simultaneously scrubs, washes and dries.
