

Large capacity air pump

HP-100 / 120 / 150 / 200

Built-in use

Outdoor use (for wastewater treatment)

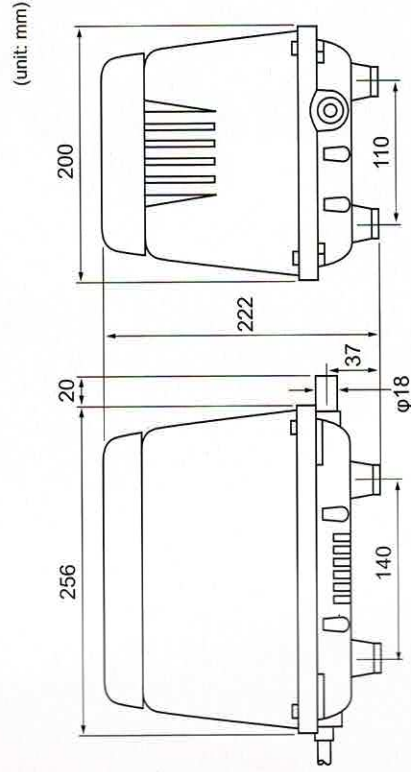

Pressure type

Outdoor (Rainproof) use

Applications

- Septic tank (biological contact aeration)
- Air injection for bubble bath
- Small capacity compressor
- Oxygen supply for fish breeding

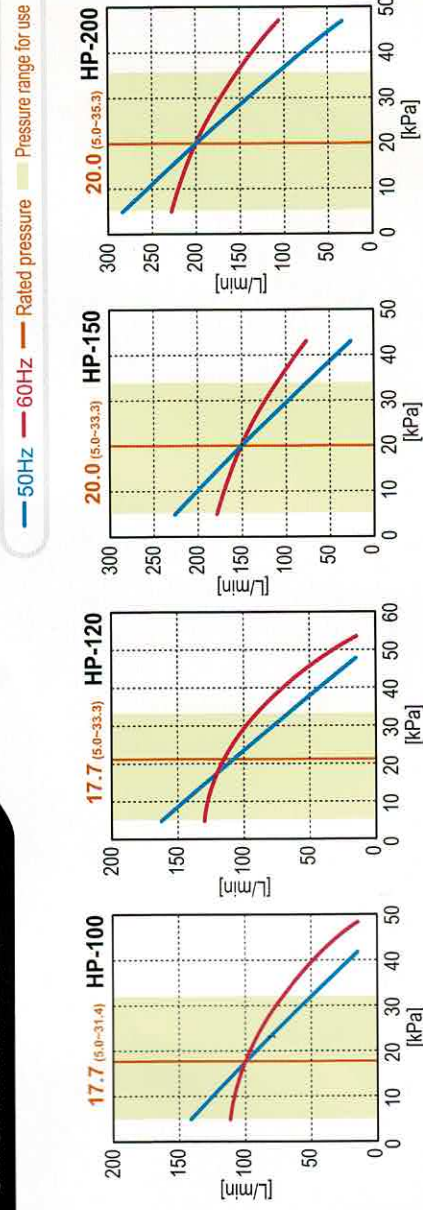

Dimensions

Specifications

	HP-100	HP-120	HP-150	HP-200
Rated voltage	V AC100 / 120 / 230			
Power frequency	50	60	50	60
Rated pressure	kPa 17.7			
Airflow volume	100	120	150	200
Power consumption	95	100	125	155
Sound level	38	40	45	47
Weight	kg 8.5			

Performance Curve

* All characteristics values are only for reference, and are not guaranteed values.
 * Note that the operating temperature for our pumps is 41°F(5°C) to 104°F(40°C).
