

CLEANAIR TREATMENT

CLEANAIR TREATMENT

Your solution for a breath of fresh air in your living and working spaces. Say goodbye to stale, musty odors lingering in your air conditioning and heating systems. With just one application, ACOT500 goes to work, delivering a clean and healthy environment that you can feel.

Our scientifically formulated solution is designed to combat airborne malodors by both neutralizing and deodorizing. ACOT500 doesn't just mask unpleasant smells; it tackles the source, leaving your space feeling revitalized.

Not only does ACOT500 refresh your air, but it also takes a proactive approach to your well-being. This powerful formula is engineered to eliminate bacteria, germs, mold, and fungus, promoting a healthier living or working environment for you and your loved ones.

The fine mist spray of ACOT500 effortlessly travels through your entire air conditioning system, reaching vents, filters, compressors, and hoses. Its comprehensive coverage ensures that every nook and cranny of your system receives the treatment it deserves.

Versatility is key – ACOT500 is suitable for use on automotive, evaporative, and reverse cycle systems. Whether you're at home, in your car, or at the office, you can trust ACOT500 to refresh the air you breathe.

Concerned about safety? Rest easy. ACOT500 comes with a Medical Safety Data Sheet (MSDS), available upon request. We prioritize transparency and are committed to providing you with the information you need to make informed choices about the products you bring into your space.

Revitalize your air, enhance your well-being – choose ACOT500 Clean Air Odour Treatment today and experience the difference in just one application. Breathe freely with confidence.
