Scan smarter

Rapid changes in veterinary healthcare has created a real need for ultrasound imaging that is built on productivity and efficiency. Yet when faced with limited budgets and growing veterinary demands, finding a smart solution that truly meets your need is often challenging.

Siemens Healthineers is driven by our commitment to help you meet all your imaging needs. We design with purpose, ensuring that we deliver the advanced performance you expect.

The Siemens Healthineers ACUSON NX3 Elite ultrasound system embody – in many ways – what you love about smart technology. Built specifically around the way you work, the ACUSON NX3 Elite is simple, yet powerful. When form meets function, the result is intuitive and smart ultrasound systems that will help promote your highest levels of performance.

Smart scanning

Smart performance

Smart engineering

Improved tissue differentiation and border detection in this liver cyst using Dynamic TCE (tissue contrast enhancement).

Outstanding color Doppler sensitivity with one touch flow state optimization leading to increased efficiency.

Smart scanning

Time affects all aspects of daily imaging from patient comfort to staff productivity. And, in today’s increasingly competitive and rapidly changing healthcare environment, time is of the essence.

The ACUSON NX3 Elite offers advanced workflow solutions that aim to deliver consistent, accurate results – even in the most active clinical settings. With up to 28% fewer keystrokes and 3x more user-customizable settings¹, the ACUSON NX3 Elite are faster and more intuitive than traditional systems, creating an ultrasound experience that’s right for you, your specialty and your patients.

¹ Data on file. Results may vary.

See more with the largest display in its class

- A 21.5-inch high-resolution display allows you to see more details in less time.

Do more with an intuitive touch display

- A 10.4-inch high-resolution display with instant response technology allows for faster selection of imaging protocols.
- Exclusive features at the tip of your fingers.

Scan more with a streamlined control panel

- Designed for ultimate productivity and flexibility, the newly re-designed control panel has up to 28% fewer keystrokes¹ and 3x more user customizable settings to help you scan faster.

Smart performance

Designed to elevate your daily imaging routine, the ACUSON NX3 Elite features the latest ultrasound innovations from Siemens Healthineers. These tools adapt to your dynamic needs by offering enhanced clarity across a wide range of applications. With imaging solutions built for performance, you can approach each exam with a greater level of diagnostic confidence.

Dynamic TCE (tissue contrast enhancement) with Advanced Sieclear imaging gives you better border detection with improved tissue differentiation as seen in this bladder image.

The easy, intuitive control panel enables maximum work flow efficiency.

Smart engineering

The ACUSON NX3 Elite ultrasound platform is versatile and built to grow with you as your needs evolve. From the intelligent system design to the easy integration of software updates, every feature works together to ensure your system continues to support your imaging needs for years to come. As the field of healthcare continues to change, you can feel confident that an ACUSON NX3 Elite will equip you today and in the future to deliver the best possible care.

Optimize your capital investment

The ACUSON NX3 Elite offers fully compatible and scalable transducers, which can reduce your up-front investment by an average of 31%¹.

Maximize your system uptime

Featuring a state-of-the art digital architecture and optional 24/7 Smart Remote Service, the ACUSON NX3 Elite offers high uptime and optimal performance.

Extend the life of your system

Built with clear and economic paths to upgrades, the ACUSON NX3 Elite offers easy and quick access to the most up-to-date ultrasound technologies.

¹ Data on file. Results may vary.

Smart service

Intelligently designed for real-time service support, the ACUSON NX3 Elite enable you to securely achieve the highest levels of productivity. Ensure maximum system uptime with fast and easy remote access to Siemens Healthineers’ Customer Service technical and applications experts.

Smart Remote Service (SRS)

Smart infrastructure connecting your ultrasound system with Siemens Healthineers’ global team of technical and applications experts for real-time service, remote assistance, network security, and preinstalled internet based connectivity (IBC).

eSiePrep

A free sales option to reduce on-site system configuration time by configuring IBC before shipping the system to you, allowing easy SRS access on day one.

eSieLink Remote Assistance Technology

Enable a real-time, secured remote support session from a Siemens Healthineers Applications Specialist or Service Engineer directly from your ultrasound system.

The products/features mentioned in this document may not be commercially available in all countries. Due to regulatory reasons their future availability cannot be guaranteed. Please contact your local Siemens organization for further details.

Standalone clinical images may have been cropped to better visualize pathology.
