

Air - Diving, Instrument & Zero

Description

Is a mixture of mainly Nitrogen and Oxygen gases. It is a non-flammable gas which is odourless, and colourless. Air is the Earth's natural atmosphere.

Zero Air is a mixture of pure Nitrogen and Oxygen (to eliminate impurities found in air).

Applications

- Industrial compressed air is employed as a source for burning and various industrial oxidation processes.
- Other common uses include the operation of pneumatic tools, starting diesel engines and 'pigging' pipelines.
- Industrial EHP Air is supplied at higher pressures in extra high pressure, cylinders of great capacity.
- Instrument Grade Air is used for non-critical instrument use.
- Diving Grade Air is used for scuba diving.
- Zero Air is used in calibrating environmental & other instruments, and used as an oxidant in Gas Chromatography FID (Flame Ionization Detection).

Hazard statement(s)

- Contains gas under pressure; may explode if heated.

Prevention statement(s)

- None allocated.

Response statement(s)

- None allocated.

Storage statement(s)

- Protect from sunlight. Store in a well-ventilated place.

Other hazards

- No information provided.

Signal Word: Warning
 UN No.: 1002
 Hazard No.: 2T
 Chem Symbol: N/A

Air - Diving, Instrument & Zero

General Specifications

Specifications	D Cylinder	E Cylinder	G Cylinder	12 Pack	16 Pack Offshore*
Cylinder/Pack (101.325kPa @15°C) - m ³	1.2	3.5	9.5	113.0	165.0
Water capacity per Cylinder - L	10	23	50	600	800
Cylinder Colour	Pewter Body/Black Shoulder				
Outlet Connection	Type 60				
Package Dimensions (H x W x D) - mm	645 x 180	780 x 230	1,510 x 230	1,900 x 780 x 1,020	2155 x 1065 x 1065

* 16 Pack Offshore is only available in Diving Grade Air. Cylinder dimensions are approximate – variations may occur due to manufacturing tolerances. Height includes the valve. Container sizes may vary from state to state.

Package Sizes Available

Typical Analysis

Product Type	O ₂	N ₂	CO ₂	CO	Oil	THC	Moisture
Diving	21 ±2%	Balance	≤500ppm	≤5ppm	≤0.1mg m ⁻³	N/A	≤25ppm
Instrument	20.4 - 21.4%	Balance	N/A	N/A	N/A	N/A	<20ppm
Air Zero	20.0 - 22.0%	Balance	N/A	N/A	N/A	<0.5ppm	≤3ppm

Quality Assurance

Supagas Pty Ltd is committed to comply with the requirements of ISO 9001-2019 and to continually improve the effectiveness of our Quality Management System.

Everyone at Supagas understands we must provide a safe environment for both our employees and the wider community. We are therefore committed to implement and maintain a continual improvement approach throughout the organisation whilst also meeting all applicable statutory and regulatory requirements.

NATA Accreditation

The Supagas Laboratory located in Ingleburn, NSW has a NATA

Accreditation (No. 18955). Accredited for compliance with ISO/IEC 17025 and ISO 17034.
