- 610 W x 450 D x 160mm H, 9.2Kg.
- Tare/pre-set tare, zero/hold, scroll up/down, clear/enter, re-weigh, kg/lb
- Auto power off - Low battery indicator
- Updatable firmware
- RS232 & USB Port

Product Code

- SCWS-H650-11-1

Why Buy

The Neonatal scale features advanced technology, for precise weighing of newborns and growing babies. Weight gain is an essential sign of good health in newborns. The advanced technology of the Neonatal scale allows for precision weighing of newborn and growing babies. The technology is so precise that the scale is integrated into warmers and incubators used to sustain premature babies. Unique movement compensation technology provides 100% accuracy, even when baby moves during weighing. Upper tray can easily be removed to allow infants to be weighed in a standing position. Optional digital measuring rod is available for this model for calculation of baby's length.
