

Hydraulic Double Scissor Lift Table 1000kg Capacity / 1.5m Lift

This hydraulic lift table features a large deck size, designed to handle oddly shaped or oversized items. Ergonomically designed with a foot pump to elevate the table height reducing strain and fatigue from bending over. Easy to use pump to elevate up and release handle for it to go down in a controlled manner.

Features

- Rear braking system.
- Overload by-pass valve.
- Lockable swivel urethane castors.
- Easy to use foot pump allows user to lift to desired height.
- Powder coated safety yellow for hi visibility and extra protection from wear and tear.
- Polyurethane wheels: are mainly used for floors that are delicate like marble, floor boards or tiles.
