Product Code

- SCHC-R

Why Buy

Comfort is the primary consideration for both the client and the carer. The Reflex can be used as a toilet chair, in combination with a bedpan / bucket. This chair provides the same comfort as a regular chair and offers the same degree of support, however can be electrically, gradually adjusted in height, in relation to the base frame. The chair component of the Reflex can be tilted backwards to 30 degrees. The Reflex is thus a multi-functional device with essential, unique performances.

Optional leg comfort supports
