quality catering equipment**

birko
PROUDLY AUSTRALIAN OWNED 

Product Range Guide

About Us

Proudly Australian for over 50 Years

Birko Electrics started life just prior to World War II, making soldering irons for local markets. During the war, a need was identified for some form of portable food and drink heating vessel.

Birko designed and produced the Food and Drink Heater, an electric jug with a concealed element so that the food as well as liquid, could be heated.

After the war, Birko continued manufacturing Food and Drink Heaters, selling them through major department stores. An Electric Kettle was then added to the range of products, followed by a Hot Water Urn for commercial and industrial usage.

Birko expanded further, making industrial elements for washing machines and air conditioners. The element plant developed elements for Birko's domestic appliance market, which further improved the quality and efficiency of its products.

Up to this point, all Birko products had been made from copper and then chrome plated. Copper was replaced by stainless steel in Hot Water Urns for a more reliable, hard wearing and cleaner product which was suitable for commercial applications such as hospitals, factories and Government departments.

Birko's next move was to develop a distribution network throughout Australia, and it soon began to export its products.

A takeover of Westgate Manufacturing in 1988, and Sarena Industries in 1989 allowed expansion of the product range to include Food and Pie Warmers, Gas Urns, and some commercial catering equipment.

Now in the 21st century, Birko is going from strength to strength. It has expanded its product range even further with its TempoTronic and introduced to the market a boiling and chilled water appliance: the Birko TwinTemp. An ideal addition to any domestic or commercial kitchen.

Birko continues to expand and has recently launched a brand new range of commercial catering appliances. It is now proudly represented in New Zealand by Zenith Heaters - part of the Zip Industries group.

Birko TwinTemp

Under-sink Boiling & Chilled Water System

Filtered boiling and chilled water from the one source.

Boiling and Chilled filtered water – Instant boiling filtered water for all commercial tea, coffee and cooking needs. Instant chilled filtered drinking water from the same tap.

Boiling and Ambient filtered water – Instant boiling filtered water perfect for kitchens and office tearooms. Instant ambient temperature filtered drinking water from the same tap.

New Birko 0.2-micron filters reduce chlorine taste and odour and filter out particles more than one fifth of a micron in size – that's one five-thousandth (1/5000th) of a millimetre – twenty five times finer than earlier 5.0 micron filtration, designed to filter out both Cryptosporidium and Giardia cysts and other impurities, for crystal-clear great-tasting water and healthier drinking.

Birko Tempo Tronic

Over-sink Boiling Water

Boiling water when you need it for kitchens large or small.

When you need it – boiling water available as soon as you need it.

Suits your needs – choose from models delivering 8 to 150 cups of boiling water.

Convenient – two-way tap makes it easy to fill cups or jugs.

Low maintenance – with a stainless steel case and interior tank, it is designed to last.

Filter option available – can be supplied with an external 5-micron filter for fresh and healthy filtered boiling water (highly recommended).

Timer option available – substitute the 107 part number to 108.

Birko Domestic & Commercial Urns

Safe and reliable portable urns.

A size to suit any need. Polished stainless steel body with vented cool to touch, twist to lock lid.

High quality & low maintenance – Chrome plated brass tap on commercial 1009010 – 1009040 at a comfortable cup height and polished stainless steel body with vented, twist-to-lock lid. Welded joints for superior corrosion resistance and effortless cleaning.

Temperature control – thermostat has variable settings, for greater control over the boiling water.

Safety – Push button over temperature cut out turns off the power if the urn boils dry and the non-drip tap prevents accidents and mess.

All you need – indicator light, water level gauge on commercial 1009010 – 1009040, heat-resistant knobs, easy-lift safety handles and enclosed lockable lid.

If you need to serve hot soup on demand, this safe, sturdy and stylish soup kettle has everything you need at exceptional value.

Built to last – Aluminium construction with stainless steel heating element and water tank.

Stable – a robust pressed powder coated body with safe lifting handles and rubber feet for maximum stability.

Safe – a hinged lid to minimise spills.

Wet style operation – Side handles for lifting, simply fill the internal cavity with water and the soup kettle heats the water to heat the soup via the inner bowl efficiently and evenly.

Temperature controlled – By setting the dial to the heat level that you require, the simmerstat will maintain your soup at an ideal serving temperature.

Soup Kettle 9 Litre

Part Number	1030601
Capacity	9 Litres
Power	400-476W
Voltage	220-240V
Empty Weight	4.8 Kg
Dimensions (mm)	Dia 345 H 380

Birko Rice Cooker

Perfect cooked rice every time!

This high quality cooker is durable, low maintenance and great value!

- Thermostatically controlled dual temperature.
- Dual power rating for cook and keep warm – 1950 watts main power, 85 watts low power.
- Polished stainless steel outer body.
- Red and green indicators.
- Burn-proof pad.
- Easy clean non-stick inner bowl.
- Easy to use – simply measure rice and water then turn on!
- Utensils included (spatulas and rice measure).
- 12 Month warranty.

Rice Cooker

Part Number	1007000
Capacity	6 Litre / 60 Cups
Power	1950W

Birko Thermal Hot Pack Heater

30 litre heater made from quality stainless steel

30 litre portable, counter-top heating unit that is perfect for physical therapy or small clinical settings. Hot Pack Rack sold separately.

High quality – polished stainless steel body with vented twist-to-lock lid can heat 6-8 hot packs at one time (depending on size). Holds packs in vertical position for moist, even heating.

Temperature control – thermostat control sensor maintains accurate water temperature.

Safety – built-in safety cut-out switch in case of boil dry.

All you need – power indicator light and on/off switch, heat resistant handles and knobs.

Thermal Hot Pack Heater

Part Number	1009034
Rating	10A
Voltage	220-240V
Empty Weight	4.75 Kg
Dimensions (mm)	Dia 354 H 480
Rack	1091001

Birko Filter Cartridges

Genuine Birko replacement filter cartridges.

New Birko 0.2-micron filters reduce chlorine taste and odour and filter out particles more than one fifth of a micron in size – that's one five-thousandth (1/5000th) of a millimetre – twenty five times finer than earlier 5.0 micron filtration, designed to filter out both Cryptosporidium and Giardia cysts and other impurities, for crystal-clear great-tasting water and healthier drinking.

This is the most advanced and most practical water filtration system available anywhere today, developed to meet our exacting specifications by the world leader in water filter technology.

Birko 0.2-micron filter cartridges are hygienically encased for fast and easy filter cartridge replacements.
