BETTER MOBILITY IN PREMIUM QUALITY

TENTE believes in smart mobility solutions which noticeably improve people's lives and their work environment. TENTE solutions increase productivity, ensure safety and open up new horizons in matters of design and durability as well as environmental friendliness. Leading manufacturers and companies of different industries rely on these competencies and our high production quality.

On the following pages you will find technical information of our Agila stainless range. We will also demonstrate the added value this mobility solution offers to your organisation. Among others:

Permanent washability

Versions with metal components made of stainless steel.

Compliant version

For use in commercial kitchens (DIN 18867 Part 8).

Certified conductivity

Conductive version to protect users and electrical devices from electrostatic discharge.

HOUSINGS

FEATURES

Secured stand

Total lock for swivel housing and locking the wheel simultaneously.

Compliant version

For use in commercial kitchens (DIN 18867 Part 8).

Permanent washability

Versions with metal components made of stainless steel.

Painted surface

Black housing with bump and scratch resistant cathode immersion paint.

Resource-conserving part replacement

Threaded axles allow for effortless wheel change.

HOUSINGS

The housings are made of stainless steel. The wheel axle with nut makes it possible for an easy exchange of the wheel, resulting in reduced maintenance costs.

• **Swivel castor**
Swivel housing for easy manoeuvrability in all directions.

• **Wheel brake**
The manually operated pedal lock prevents unintended movement.

• **Total lock**
The total lock simultaneously locks the wheel and swivel housing for a secure placement.

• **Fixed castor**
Wheel and housing are fixed for standard functionality. The castor is continuously aligned in the direction of travel.

Items with this sign „-“ are not available in our standard range. Please contact us.

*Washable versions with metal components made of stainless steel.

Swivel bearings

Two ball races for best manoeuvrability.

Optimised manoeuvrability

The Agila is also available as a single wheel castor made of pressed steel and also as a twin wheel castor with high manoeuvrability due to differential effect. Please contact us for more information.

WHEELS

FEATURES

Low-vibration transport

Extra soft wheels with good shock-absorbing properties.

Sterile cleaning

Wheels for steam sterilisation in auto-claves used in sterile areas.

Constant heat resistance

Duratech wheels made of heat resistant material for use in extreme environments.

Protective seal

Wheels with sealed bearings to protect against water spray and dirt.

Quiet rolling

Soft wheel types for a quiet working environment.

Non-marking movement

Wheels with reduced abrasion and minimal cleaning effort.

Non-staining operation

Non-staining on contact with floors when left standing for long periods.

Low-maintenance wheels

Thread guards for unobstructed operation and minimal cleaning effort.

Certified conductivity

Conductive version to protect users and electrical devices from electrostatic discharge.

WHEELS

The characteristics of our wheel range are as diverse as their uses. Precisely adapted to the required parameters, they provide optimal manoeuvrability with perfectly matched components, even under the most extreme conditions. You'll discover a wide range of wheels in our Agila product range. Here are the four wheel types.

Puretech

Robust wheel with rubber tread for versatile use. Protection through low-vibration transport.

Supratech

All-around smooth-running wheel with thermoplastic rubber tread. Excellent performance in manoeuvrability and mobility due to the use of high-performance material. A washable version is also available.

Maxtech

Perfect for a functional design, injection-moulded polyurethane. Optimal material properties for any purpose. An electric conductive and washable version is also available.

Duratech

Stable and indestructible, made of polyamide and thermosetting plastic with an abrasion-resistant tread.

Wide range

Browse the full wheel range on the following pages.

Bearing types

Plain bearing for short distances.

Precision ball bearing for highest performance.

Temperature range

Castors with expander fitting have a lower temperature range of -10°C / +40°C.

Load capacity

The load capacity depends on the housing and wheels. Each has been tested and fulfils the requirements according to EN 12528 and EN 12530 at a speed of 4 km/h. When using 4 castors to determine the necessary load capacity, calculations are as follows: the sum of the weight of your application plus the additional load divided by 3 castors.

$$\frac{\text{Weight of application} + \text{load}}{3} = \text{Load capacity of one castor}$$

FITTINGS

FEATURES

Variable fitting options

Different fitting dimensions for a large range of applications.

Fast assembly

Faster assembly process through the use of plug-in fittings.

ADDITIONAL FEATURES

Tested quality

Tested in our own laboratory for compliance with European standards.

Colour matching

Colours can be adapted to match the product design.

Non hazardous materials

Complies with the RoHS directive and REACH regulation of the European Union. Does not contain polycyclic aromatic hydrocarbons or chromium (VI).

PLATE FITTINGS

The fitting of a castor is dependent on the application it's being attached to. With plate fittings, the castors can be screwed under the device with four screws. This ensures a simple and robust connection.

Fixed plates P50
The longside of plate is 90° in the direction of travel.

EXPANDING FITTINGS FOR TUBES

For an easy mounting into tubes, we offer solid stem fittings with suitable adaptors. All fittings are made with high quality bright zinc plating and blue passivated or stainless steel to ensure long-lasting use.

Expander Fitting
Adjustable for different tube diameters. Available for round or square tubes.

Bolt hole
For screws of any length.

Expander fittings

Our expanders and castors can be delivered separate or completely assembled. Castors with an expander fitting have a lower temperature range of $-10^{\circ}\text{C} / +40^{\circ}\text{C}$.

Items with this sign „-“ are not available in our standard range. Please contact us.

DIVERSITY WITH A SYSTEM

OUR CASTORS

All of our products have their own specific qualities and strengths. Whether it's high design standards, specialist applications or exceptional load capacities – our range fits the bill. With this in mind, our system can be adapted to fit different models.

From the detailed dimensions and technical specifications to the required configuration, whatever you need, our product range can provide the right solution for you. Contact us for more information or visit our website: www.tente.com

EXPERTISE THAT INSPIRES

CONTACT US

We are a global company that offers you support across five continents. That means on the spot support, tapping into our in-depth knowledge. Additionally, our experienced solution experts can advise you on the best mobility solution for your needs. Find your local TENTE contact on our website: www.tente.com/locations

INCREASE YOUR EFFICIENCY

With our smart mobility solutions, we help you save time, effort, energy and operational costs. With our products you can improve your working methods and conditions, streamline your processes and ensuring increased productivity, profitability and safety. Request our solution catalogue or read our website to discover how our customers benefit from our customised solutions: www.tente.com/solutions

SAVE DEVELOPMENT TIME

You can find technical drawings, 3D CAD files and product data sheets on our website: www.tente.com/agila
