

Airway Training Dummy

FULL BODIED

LifeTec
Rescue Training Dummies

Ideal for many training scenarios including:
first responder airway management,
confined space, road traffic collision,
limb entrapment under a heavy object,
or indeed any scenario where airway
management could be required under
challenging circumstances.

 **MADE IN
BRITAIN**

Features and Benefits

- Full bodied manikin promotes more realistic and effective training.
- The manikin accommodates the Simulaids' adult airway management torso, and can be ordered without one if required.
- Torso supplied has anatomical landmarks including the sternum, rib cage, and substernal notch. The trainer also contains teeth, uvula, vocal cords, glottis, epiglottis, larynx, arytenoid cartilage, trachea, oesophagus, inflatable lungs and stomach. It allows for placement of a nasogastric tube and accepts Combitube®, E.O.A., E.G.T.A., P.T.L. and i-gel® airways.
- Soft body joints eliminate the risk of pinch welts and bruising; common injuries when using plastic bodied manikins.
- Supplied in a tough carrying holdall for easy handling and storage.
- Comes complete with boots and overalls, which are easily replaced if damaged.

Product Details

- Constructed from the same flame retardant material used in Police ballistic/stab vests, offering 4x the strength and abrasion resistance of 16oz canvas or P.V.C. (conforms to OEKO-TEX® Standard 100, BS EN ISO 12947-2 & 14116: 2008).
- High density polypropylene webbing (25mm rated to 207Kg, 50mm rated to 440Kg). Note material description does not apply to torso.
- Made in the UK - all dummies conform strictly to our ISO9001:2008 standards.

Optional Extras

- Tough drag protectors and overalls, to greatly extend the life of your manikin.

Extensively Used By

- UK Emergency Services.
- A wide spectrum of companies across industries.
- Health & Safety and First Aid Training organisations.
- Equivalent organisations across North & South America, Europe, Australia and Asia.
