SETTING THE STANDARD

MJ RANGE ROTARY MULCHER

MJ RANGE ROTARY MULCHER

The award winning range of Cyclone Mowers has been designed to do the work of a flail mower but requires a fraction of the power and fuel that a flail mower would consume.

These machines are strong, rugged and robust; specifically designed for use in set-aside, forestry margin management and sensitive environmental scrubland control. This machine easily copes with the toughest of conditions including shrub, saplings, gorse and brush. It is ideal for the clearance of arable stubble, maize and rapeseed crops.

Strenx™ 700 MC high-strength steel is used in the manufacture of these machines. This material is stronger than steel traditionally used in machinery manufacturing. The undersole discs are produced from Hardox® 450, a wear and abrasion resistant steel. An optional side shift unit is available which allows the operator

- Can be front or rear mounted (to be specified when ordering)
- Patented 'blender' double chop blade system
- 25% less power and fuel consumption required than a similar sized flail machine Impact shock reducing swinging hardened spring steel blades
- Low maintenance machine with less wearing parts than a flail mower
- Heavy duty rear roller

Model	Working Width	Weight	HP (Min.)	Rotors
MJ30-200	2.0m (6'5")	600kg	50-100	3
MJ30-250	2.50m (8'1")	785kg	70-120	4
MJ30-300	2.85m (9'4")	890kg	80-140	3
MJ30-350	3.50m (11'5")	1120kg	90-140	5
MJ30-420	4.43m (14'6")	1265kg	100-150	6
MJ30-560	5.60m (18'4")	1680kg	110-150	8
