SYLTON

AESTHETIC ANALYSIS

Let's look into *face*

Analyse all signs of facial aging, from volume changes to appearing pigment and consult patients on the best non-invasive treatments.

Starting point

Daylight

SKIN DIAGNOSIS

Let's look into *skin*

Look at the root causes of predominant skin concerns and help patients decide on the most beneficial treatments.

Volume and shape

Appearance

Predominant concerns

Build the confidence of your patients who experience severe issues and use your skills to achieve results far more meaningful than beauty
