

DP250

**HEALTH
AND SAFETY**
Minimize your risk

Suitable for
Oil Industry
Manufacturers
Food Production
Auto Manufacturers
Shipping & Exporting

Minimize your waste of time, space and money

- 85% compaction rate
- 25 tons of pressing force
- Surrounding spray guard
- Quiet two-stage hydraulics
- Automated compaction cycle
- Collection drain for excess fluid
- Electrical and hydraulic overload protection

The DP250 is a Drum Press capable of compacting steel drums and barrels in less than a minute. With 25 tons of pressing force, even the heaviest of steel drums can be compacted to almost a tenth of their original size.

With a floorspace footprint of just over 1m², the DP250 Drum Press is ergonomically designed. Featuring a surrounding spray guard with a large viewing window, users can safely and conveniently operate the machine.

The hydraulic and electric controls are integrated in the machine for maximum convenience and protection against damage, and a collection drain allows excess fluid to safely run off.
