

RACKMAN LONGSPAN SHELVING

Rackman Australia's Longspan Shelving comes in a variety of dimensions and provides an inexpensive storage solution ideal for a multitude of applications including industrial, commercial, or domestic purposes.

Made of high quality materials, it's suitable for box storage, archive shelving, storerooms, workshops, workbenches and more, it features:

- An easy to assemble system that is quick, economical and highly versatile
- Pre-assembled frames for fast and simple construction
- Step beams for flush fitting either mesh decks, chipboard for general applications or galvanised panels for highly corrosive/food applications
- Accessories include clothes hanging bars, cable brackets, shelf supports, splice kits and special corner brackets
