THE MOST THERMALLY EFFICIENT TRANSPORT IN AUSTRALIA

FRIDGE AND FREEZER TRAILERS

Freezer trailers are used when there is a need for large freezing capacity, or as extra freezer storage for caterers, restaurants, events, food transportation and other businesses. All models are constructed with 80mm thick foam sandwich panels, ensuring high insulation capacity.

Powerful GOVI cooling unit. Can cool from room temperature down to +2° to -20°.

High-quality sandwich panels with UV stabilised fibreglass (int/ext).

High-quality aluminium joins and clasps.

Interior light with sensor.

Aluminium floor. Durable and easy to clean.

Two lashing rails mounted to the sides.
Perfect for hooks etc.

Four strong supporting legs and handle for easy operation.

Powerful tilting jockey wheel for easy manoeuvring.
