MINERAL SIZERS STATIC & MOBILE PLANT

INTRODUCTION

ALP Mineral Sizers supply a range of high quality sizers for the mining industry. These Mineral Sizers combine design features developed over many years of experience in the UK mining industry with the benefits of economical manufacturing in China. The designs are based on those developed by experts, who have spent more than 30 years within the mining industry.

ALP Mineral Sizers with its knowledge and expertise in the mining and quarrying industries, has supplied many applications within the following industries.

- Deep Mining
- Energy
- Precious Metals
- Industrial Minerals
- Construction
- Smelting Industries

Including, Coal, Kimberlite (Diamond Ore), Iron Ore, Gold Ore, Overburden, Ceramic Industries, Clay Shale, Carbon Anodes, Wet Sticky Materials, and many other applications, handling capacities up to 3.5 Metres Cubed with throughputs of up to 20,000 Tons Per Hour

ALP Mineral Sizers, can supply Static, Semi Mobile and Fully Mobile, creating the complete Mineral Sizing Solution You Need.
