

Swivel Castor with Central Lock

Series 3645

Castors with a hexagonal actuation rod

Brake released

Brake fixed

Advantages

- Robust castor design for speeds of up to 15km/h
- Economical operation of multiple castors through an interconnecting hexagonal actuation rod (see figures 1+2)
- Efficient to use by linking the brake function to the drawbar of the trolley
- Proven castor design with protected and sealed precision ball bearing in the swivel head
- Simple readjustment of the brake pad to compensate for wheel abrasion
- Convenient operation of the brake by an extra-large pedal
