

AMP-E^{SERIES}

Tank Mounted Electronic Piston Air Compressor

5.5-10 HP (4-7.5kW)

Motor Power

**495-1030 L/min
(25-52cfm)**

Air Delivery

**9bar
(140 psi)**

Operating Pressure

100-240L

Tank Options

Description

The AMP Series compressors are manufactured on-site in Brisbane from the highest quality materials sourced locally and internationally.

Our Piston Air Compressors are built using Australian and imported materials.

Designed with quality in mind our AMP Series is the perfect solution for budget oriented operations that depend on compressed air.

A COMPLETE AIR COMPRESSOR PACKAGE:

- DLI approved Australian made air receiver
- Non-return valve
- Safety pressure release valve
- Auto cut in/out switch
- Easy read pressure gauge
- Drain cock
- Heavy duty wheels
- Quick seal snap release airline coupling
- Easy lift handles
- A choice of mobile or stationary base
- Replaceable inlet filters with noise dampeners for quiet operation

AUSTRALIAN
DESIGNED & MADE

5 Year Warranty

Applications

- Automotive
- Manufacturing
- Steel Fabrication
- Woodworking and Cabinet making

Model	Motor Power (hp/kW)	Free Delivery (cfm/L/min)	Max Pressure (psi/bar)	Cylinders	L x W x H (mm)	Weight (Kg)
