

Tenso® TS-502MH

Semi-Auto Horizontal
Pallet Strapping Machine

#60442

**Compact
Strapping Head**

**Ergonomic &
Economical**

**Electric Tension
Control**

**German
DC Motors**

The Semi-Auto Horizontal Pallet Strapping Machine features a compact strapping head, German-made DC motors with direct drive technology, and electronic tension control. This machine offers the convenience of easy mobility, allowing it to be positioned adjacent to the load for strapping without the need to move the pallet. Quick, ergonomic, and cost-effective, this model stands as an optimal solution for low-volume horizontal pallet strapping applications.

Features

- Compact mechanical strapping head
- Adjustable strapping height
- Electronic tension control
- Jog switch
- Adjustable weld-cooling time
- Two moving direction

Options

- Battery power supply
- Edge protector holder
- Handle on the rear for back/forth movement

Specifications

Strap Type:	PP strapping
Strap Width:	9 mm, 12 mm, or 15.5 mm
Tension Range:	8 - 70 kg
Weight:	292 kg
Electrical Requirements:	110V, 220V, 230V, 240V 50/60Hz 1PH
