Heater Circulator

Supplied by **Thermoline**

The Thermoline Heater Circulator is designed to provide an accurate, digitally indicated method of maintaining the temperature of a bath to 95°C whilst circulating the water to minimise the temperature variation throughout the volume of water.

With an air cooled long life circulation motor and a 1500W heating element, these robust units provide precise temperature control, circulation, and heat transfer to the fluid, ensuring consistent and uniform heating of the sample.

- **Models available:**

Thermoline supplies two variations of the heater circulator. The TU-1500 fits directly into a Thermoline TWB-24NE-4E bath and the second features a sturdy universal mounting bracket (TU-1500-B model) to retrofit to any existing uncirculated water bath.

- **Mounting Options:**

The Thermoline water baths feature a bridge especially suited to the TU-1500. Also available is a universal clamp to allow you to fix the TU-1500 to your existing water bath. The clamp features a quick-release screw and allows you to fix the circulator to the wall of an existing water bath.

- **Digital Controller:**

The heater circulators have programmable LED controllers with a display accuracy of 0.1°C. The easy-to-use controls and bright LED display allow the user to set parameters such as high alarm, temperature calibration and timer options.

- **Circulated Heating:**

A long-life motor pumps water throughout the bath, providing a consistent temperature, excellent uniformity and fast recovery times.

Technical Specifications

	TU-1500	TU-1500-B
Temperature Range	Ambient +5°C to 95°C (max temperature with lid on)	
Mounting plate to suit Thermoline TWB-24NE-4E water bath	✓	X
Universal Mounting Bracket	X	✓
Bath Capacity	Up to 50L with a lid	
Display Accuracy	+/- 0.1°C	
Electrical	1500W/230V	
Max and Min. Filling Height Marks	✓	
Dimensions WxDxH (mm)	150x110x285	121x159x285
Weight	1.6kg	

Features

Digital Controller	✓	✓
Air Cooled Motor	✓	✓
Timer Range	5m - 99h 59m	
Cleaning Reminder	✓	✓

Safety

Over Temperature Safety	✓	✓
Low and High Water Safety	✓	✓

Note: Bath sold separately
