PROFESSIONAL DFS
AIR PURIFICATION SYSTEM

Intellipure Compact Professional Air Purification System

The Intellipure Compact DFS Air Purifier is designed for home or small office use. It uses the same advanced, patented technology that makes Intellipure the world leader in indoor air quality. The simple, stylish design compliments any bedroom or small living space decor.

SPECIFICATIONS

Protects up to 46m²

Dimensions (mm) 285 x 385 x 565

Weight 8kg

Colors: White

100-240V~ 50-60Hz

Blower Speed	Energy Usage (Watts)	Air Flow	Particle Efficiency
Low	9	22 cfm	100%
Med	15	49 cfm	100%
High	25	79 cfm	100%
Turbo	61	150 cfm	100%

Our technology is individually tested to guarantee better than HEPA, efficiency removing 99.99% of particulates @ 0.007 micron. This makes Intellipure the most efficient air purifier available.

FEATURES

- Particle efficiency - 99.99% @ 0.007 micron
- 6-stage VOC adsorption filter for heavy removal of harmful gases and odors
- Patented DFS technology efficiently removes up to 99.99% of airborne mold, bacteria, and viruses passing through the system
- Each machine is independently tested and certified to guarantee better than HEPA efficiency

- Substantial reduction in airborne microorganisms, chemicals, offensive gases, odors, and smoke.
- Less dust and dander, pollen, dust mite waste, bacteria, mold, fungi and virus protection
- Compact, ultra slim design
- Easy to maintain
- A clean and fresh smelling environment
- The revolutionary DFS technology reduces bioburden and inhibits microorganism growth passing into the system through microbiostasis condition
