

Hand truck buyer's guide: Why aluminium outweighs steel.

It's a better value.

Magliner aluminium hand trucks match steel load for load. They're just as strong so you can carry as much, or more, per load.

They last longer and cost you less money in the long run. Our modular design lets you customize your own hand truck so they're better matched to the job. Repair costs are slashed. And aluminium never rusts.

It's easier to use.

We've designed our aluminium hand trucks around your needs. Because they're lighter than steel, Magliner trucks make tough handling jobs easier. You get better efficiency and more productivity. Injury-related losses like disability time and worker's compensation decline.

All-in-all, you get a better hand truck.

To get a better hand truck, call your Magliner distributor, or call us.

Modular aluminium hand trucks: Long-lasting value.

STRAIGHT BACK

111U1035

General use, straight back, pram handle, 457mm x 190mm Nose, 250mm pneumatic wheels
Capacity 225kg
Unit Weight 12kg

Multi use, curved back, pram handle, 355mm x 190mm Nose, 200mm rubber wheels
Capacity 225kg
Unit Weight 8kg

Straight back model

Curved back model

Magliner aluminium hand trucks weigh as little as 8kg, but have an effective capacity of 225kg. Light weight means less operator strain, fewer injuries and greater productivity.

Lightweight hand trucks are easier to lift on and off delivery trucks and easier to move around in confined spaces.

Two frame styles for flat and curved loads

Straight back frames (far left) are ideal for boxes and cartons. Curved back frames (left) carry cylindrical objects like drums and kegs safely and easily (see accessories page for options).

WHEELS

815
 Cast aluminium hubs; 200mm rubber tyres; ball bearings. No. 10815

1035
 One piece hubs; 250mm pneumatic tyres; ball bearings. No. 121035

FRAME EXTENSION

52 (pictured)
 1320mm No. 40008
60
 1525mm. To give overall handtruck height. No. 40010

NOSES

Type A
 Cast aluminium or magnesium; 355mm wide, 190mm deep; recessed heel. No. 300200

Type U
 Cast aluminium or magnesium; 460mm wide, 190mm deep; recessed heel. No. 300201

STAIR CLIMBER

No. C5
 Cast aluminium with replaceable polymer skid bars. No. 86006

HANDLES

11
 'U' loop; easy to use. No. 301000

16
 Double grip with extension. No. 86031

RETRACTABLE 4th WHEEL

125mm caster wheels support load in inclined position. No. 301050

FOLDING NOSE EXTENSIONS

No. F1
 600mm formed plate 301019

No. F2 (pictured)
 500mm extruded channel 301025

No. F3
 750mm extruded channel 301026

KEG HOOK

No. 301121
Fits curved back models only
 Better load control. Swings out of way when not in use. Provides load support and stability
 Two hooks available; one for barrel shaped and odd sized kegs, and one for straight kegs.

FOLDING NOSE PLATE

No. 302541 / 300245
 Nose 355mm x 190mm
 Extruded Aluminium
 Fold flush with frame for easier storage
 Convenient, doesn't interfere with front of frame when not in use.

THE VENDOR SERIES

Taking the weight out of heavy vending

Uniquely designed to handle the largest vending machines, this new model provides positive locks in both the free standing and reclined position, allowing the swing to be locked into position. Special rocker bar allows heavy loads to be broken back with much less effort. This new feature totally eliminates the problem of the load rolling backwards. The truck is available in 2 sizes - 1830mm and 1980mm. The foot operated swing allows freedom of movement with hands and arms while handling the tallest machines. It also provides additional leverage when breaking the vending machine back. The entire load can then be balanced with ease going through a standard door.

Gemini™ : Fewer trips with bulky loads

Carry normal loads, or push a lever, and carry twice the volume in the platform truck mode.

These convertible aluminium hand trucks double as platform trucks. The Gemini™ Junior and Gemini™ Senior carry normal loads just like standard hand trucks. Simply push a lever, and they instantly convert to platform trucks capable of carrying twice the volume. Doubling the volume eliminates extra trips, speeds deliveries, reduces strain and makes your employees more productive.

Both the Gemini Junior and Senior are versatile general-purpose hand trucks and, in the 4-wheel mode, are ideal for transporting large, bulky or awkward loads like boxes or sacks. The Gemini Junior has a 300kg capacity and the Gemini Senior has a 360kg capacity in the 4-wheel position.

Folding noses are available on both models and stair climbers are available on the Gemini Senior. 250mm pneumatic tyres are standard.

Gemini Junior Model HTGK-1834

Frame width 420mm
Height as hand truck 1300mm
Platform bed length 950mm
Capacity as hand truck 225kg
Capacity as platform truck 300kg
Shipping weight 20kg

Gemini Senior Model HTGK-9584

Frame width 420mm
Height as hand truck 1550mm
Platform bed length 1300mm
Capacity as hand truck 225kg
Capacity as platform truck 360kg
Shipping weight 22kg

Junior Deck Part No. 302188

Senior Deck Part No. 302185

Four-wheel position with snap on deck

Just push the lever.

It releases the back wheels into the 4-wheel mode.

No tools, fasteners or loose parts.

DOUBLE GRIP HANDLES

Gemini Junior standard item

Standard tubular aluminium handle allows for easy handling of loads.

Part No. 301162

Gemini Senior optional item

Tubular aluminium handle with red plastic grips help handle the load and reduce risk of injury.

Part No. 301042

CASTOR BRAKE

Part No. 51010

Secures Gemini Junior and Senior in stationary position.
