

Contour  
Jazz

Is your patient support & safety...  
**As good as it can be?**

Are you looking for a safer solution for specialised patient care?

**Keep patients secure with extra support.**

Would you like to protect patient adjustments?

**Effortless control from a touch button panel.**

Looking to improve your work environment?

**Fun and colourful themes to brighten the day.**

# Introducing... The Contour Jazz

Keeping patients safe, secure, and comfortable has never been easier with the Contour Jazz transport and recovery stretcher. With full, touch button electronic control and innovative E-Point steering system, the stretcher offers a smooth ride for patients and the kind of ease of operation and manoeuvrability that every caring professional craves.

The Contour Jazz stretcher is available in a range of colours and themes - music, sea, jungle and space. With the option to customise to suit different purposes and specialist areas.

## Some of your Key Benefits

- An advanced E-Point steering system and solid, perfectly centred steer wheel ensure the stretcher accurately tracks and turns, while maintaining a strong grip with the floor.
- Available in a choice of four fun and colourful themes to brighten their day (and yours).
- Keep things moving with long-life, cordless, fast-charge battery packs.
- Peace of mind with a lifetime of local support, easy maintenance, and fast guaranteed parts.
- 300kg SWL
- Emergency CPR backrest release
- 15 degree head and foot down Trendelenburg
- Fully electric operation with knee break
- 2135 x 815mm overall size
- 400 - 830mm height range

**HAND-MADE WITH CARE IN AUSTRALIA**

**Safety & Support**

An ultra-low of 400mm height makes it safer for patients to get on and off - no need for step stools or unnecessary heavy lifting.

**16 Riser Dropsides**

Riser spacing's of 100mm centers for a safer side rail for patients requiring extra support.

**Premia Mattress**

Supplied standard with a premium, 4 way stretch, pressure relieving mattress.

**Effortless Control**

Sit and position your patient comfortably with a touch of a button. Also available with a fixed control panel to avoid misuse.

**Bright & Light**

Choose between four different decal themes adding life & fun in a challenging environment.

**Large Wheels**

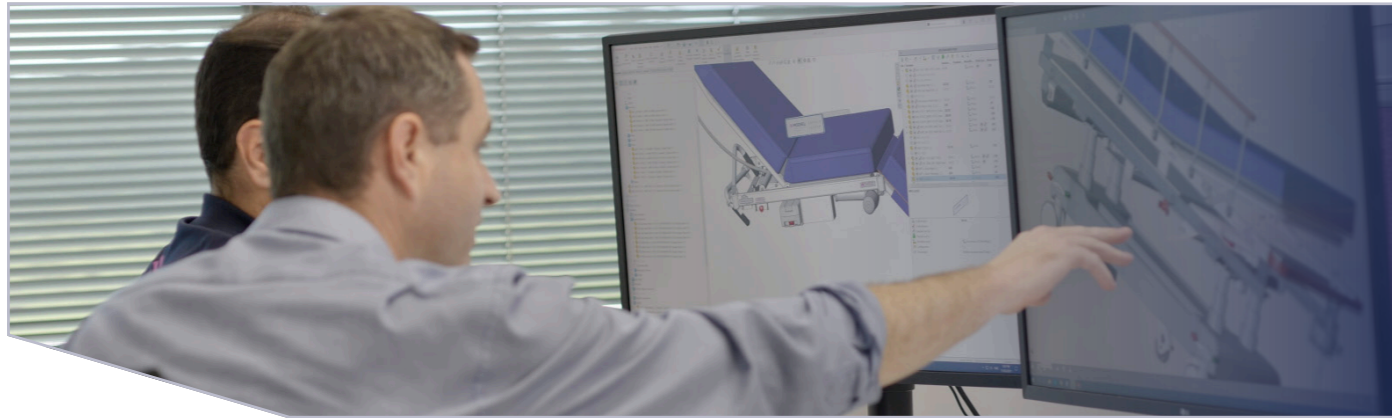

Tente castors ensure the unit can be moved easily.
