

PFREUNDT WK 60

The new electronic weighing system with touch display

With PFREUNDT scales you will always know how much material is being moved – saving time, reducing costs and improving operations.

**Easy installation,
for all applications!**

- Compact and robust
- Intuitive user interface
- Service-friendly plug connections
- Modern interfaces
- Data accessible worldwide

Brief overview

Display example, Wheel loader

Connections

- ① Antenna connections (GPRS, WLAN) and GPS position location
- ② Peripheral and sensor interfaces and power supply
 - N1 - N3 are proximity switch inputs for weighing range
 - CAN1 for connecting of pressure sensors
 - CAN2 for communication with onboard electronic systems
 - ADW for measuring inclination
 - MIO1 and MIO2 for connection of foot switches

Characteristics

- Plug connections for pressure sensors and measurement range sensors
- Capacitive 7" touch display with hardened safety glass
- User interface as for smart phones and tablet PCs
- Interfaces for printer (RS232), network (LAN), CAN bus, Multi-I/O, power supply and for wireless data transmission via WLAN, GPRS and GPS positioning
- Master data and user administration
- Calibration data storage for several add-on devices
