

MySommelier's App. How to use it.

The screenshot shows the MySommelier app interface. At the top, there is a search icon and a magnifying glass icon. Below that, there are two tabs: 'Store' and 'Serve'. The 'Store' tab is selected, showing a temperature of 15° and a slider. The 'Serve' tab is also visible, showing a temperature of 6° and a slider. Below the sliders, there are eight slots for wine bottles, each with a temperature indicator and a lightbulb icon. The first slot is empty, and the others contain wine names and temperatures: Brunello Di Montalcino (6.5°), Brunello Di Montalcino (5.8°), Chianti (6°), and Barbaresco (5.9°). Annotations with arrows point to various features: the search icon, the 'Store' and 'Serve' tabs, the temperature sliders, the wine slots, and the lightbulb icons.

STORE 15°

SERVE 6°

6.5° Brunello Di Montalcino 2018 - Col d'Orcia

5.8° Brunello Di Montalcino 2018 - Col d'Orcia

6° Chianti 2017 - Castelvechi

5.9° Barbaresco

Use the magnifying glass to search your desired wine and to illuminate it

Open the automatic crystals of your selected MySommelier

Switch from one level to another Remember: first start from the bottom

Use the slider on the Home screen to change the refrigeration mode of your wines. The Store mode sets a single temperature throughout the MySommelier useful for storing wine. Conversely, in Serve, MySommelier will set a different temperature on each level to serve the wine at the right temperature.

This is the level section

The store temperature, when selected, set a single temperature you choose in MySommelier.

The serve temperature, when selected, set a dedicated temperature for each level. The temperature must be set from cold (1) to warm (8).

To add a new bottle tap on one empty slot

When the wine is present the ring will be illuminated with the color of the type of the temperature

Wine Slot

Search bottles

To search one wine tap on magnifying glass and type the name you want on the search bar

Choose your wine from the list below and tap on the light bulb to open the automatic crystal and enlighten the slot

Lights section

Through this button you can reach the lights section

To manage the brightness of the slot's LED

To choose your favorite color.

Wait until all MySommelier have changed the color before trying another one
