

Wireless Receiver Unit (RRU)

PRODUCT CODE:

MED-RRU-6T1 (6.3mm jack plug: Tip and Ring wiring)

MED-RRU-6T3 (6.3mm jack plug: Tip and Sleeve wiring)

MED-RRU-3T2 (3.5mm jack plug: Tip and Ring wiring)

MED-RRU-3T4 (3.5mm jack plug: Ring and Sleeve wiring)

Indigo Care's Wireless Receiver Box (RRU) is an exclusive ID coded RF Receiver for interfacing to Nurse Call Points in Hospitals and Aged Care Facilities that conform to AS3811. This Receiver can be paired with 5 wireless Transmitters plus 3 Wired call devices. Simply plug the Receiver into the Nurse Call Point socket and pair with the required wireless Transmitter (follow instructions printed on RRU). The wireless Receiver will now trigger the call point when activated within the transmitting area. The receiver box has additional 6.3mm jack socket and RJ12 for interfacing with hard wired devices such as pendants and sensor mats. The wireless Receiver has a pendant-out alarm feature design for wired nurse call bell pendants.

The Receiver (Blue & Green Label) has a low battery warning plus in-built audio tone when pairing devices and a pendant out alarm.
