

Powered Coffin Lifter

Any application that requires large awkward goods to be manoeuvred to various heights.

Push Button Lift and Drive Unit

The Liftmate Coffin Lifter features both a powered lift and powered drive system, removing the need for manual pushing or lifting. With a lift height of 1660mm it is ideal to safely, manoeuvre coffins to various heights.

Features

- Large deck heights range of 520mm to 1660mm
- Heavy duty rollers to aid loading / un loading
- Valve control to ensure smooth lowering
- Variable speed control allows for easy creep
- Multiple stops to suit different length coffins
