8. This installation instruction shall be furnished with the trolley so that operating and managerial personnel can refer to it any time as necessary.

## Components

After customers purchase trolley, unpack and check the followings whether the number of parts is complete (as Figure 1):

Part Name	Each component name	Qty
Foot assembly	Base	1 pc
	Casters	4 pcs
Pole assembly	Pole	1 pc
	Locking screw M5*24*10	1 pc
	Hex bolt M12*40	1 pc
	Large washer Φ35*14.5*3	1 pc
	Small washer Φ23.5*13*2	1 pc
	Spring washer Φ12.5	1 pc
	Pan head screws M6*12	2 pcs
Handle	Handle A	1 pc
	Handle B	1 pc
	Pan head screws M5*16	2 pcs

Basket assembly	Basket	1 pc
	Basket buckles	2 pcs
	Pan head screws M4*16	4 pcs
Tray		1 pc
Tray rack		1 pc
Cross screwdriver		1 pc
Desktop pen		1 pc
Wrenches		1 pc
Installation instructions		1 pc

## Trolley Installation Steps

1. Unscrew the hex bolt at the bottom of the pole; respectively insert the spring washer, small washer, large washer and the bottom pole into the cone-shaped hole on the base, and then use a wrench to screw the hex bolt into the bottom of the pole and fix the pole and the base.
2. Adjust the upper part of the pole to a suitable height, fastening the locking screw. The basket buckle A is installed to the basket according to Figure 2, and then the basket buckle B is fixed on the upper of the pole, with a cross screwdriver use four M4\*16 pan head screws to fix the basket buckle A and B; then use two M5\*16 pan head screws to fasten the handle on the upper of the pole (Height can be adjusted to a suitable position according to the user needs).

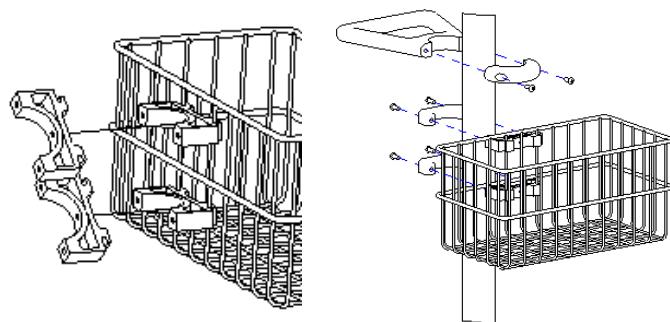

Figure 2

3. According to the Figure 3, use two M6\*12 pan head screws to fix the tray on the top of the pole.

Figure 3

4. At last the machine is inserted into the corresponding position of the tray.
