

ABOUT US

Revolvashade has been supplying cantilever outdoor umbrellas for the last 29 years. We pride ourselves on delivering products with the best designs and highest standards that you won't find anywhere else.

Our umbrellas are officially Australian Made certified and are fully covered by our warranty. Every product that leaves our workshop is manufactured to a very high standard ensuring it is a safe product for outside residential and commercial use.

We give a certified wind rating for each of our umbrellas, giving you peace of mind that you have an umbrella that will last you for many years to come. All umbrellas are manufactured with 100% acrylic canvas which provides 99% UV block, water, mould, mildew and fade resistance.

"Fantastic innovative product of a very high quality and workmanship. Staff could not have been more helpful and pleasant to deal with. This umbrella will stand the test of time! Very positive experience..."

TILT FUNCTIONS

Single Tilt is the standard function for our Deluxe and Ultimate Deluxe range. This tilt determines the diagonal angle by which the umbrella is situated on the front and rear axis. This is perfect for ensuring shade is positioned precisely where you need it at any time of the day.

Double Tilt includes the front and back manipulation of the single tilt, plus the ability to pivot the secondary arm either to the left or to the right. This is to further ensure shade is where you need it through the course of the day, perfect for tighter spaces where the umbrella cannot rotate the entire 360 degrees.

Height Adjustability exclusive to our Ultimate range, which enables you to lower or heighten your umbrella without compromising the tilts your umbrella is placed. This is perfect for shade at dusk or dawn, as well as providing a privacy solution for your spa when the single tilt is maximumly angled.
