

# NEW CartReg®

## PRESET MINIATURE REGULATOR FOR AIR

### CartReg®

CartReg® - The economical and compact solution to various pneumatic applications. Engineered to comply with various international Health and Safety regulations on air blow guns, the preset CartReg® is the economical answer to keep in check maximum pressure requirements. The preset miniature regulator is designed to meet OSHA (Occupational Safety & Health Administration, USA) and other safety agency requirements for 2 bar/30 psig maximum pressure for pneumatic air guns.

The tamperproof CartReg® can be easily mounted on any 1/4" air blow gun and pneumatic tool and is an economical means to maintain the ideal pressure.

### Your advantages

- ✓ Safety – protects personnel, machinery and plant by avoiding pressure surges
- ✓ Ensures optimal air tool efficiency by supplying a constant preset pressure
- ✓ Prevents compressed air waste – limits excessive compressed air consumption thereby reducing energy costs
- ✓ Easy assembly – can be integrated into any 1/4" pneumatic tool
- ✓ Lightweight (15g) and compact (Hexagon 14mm, length 24mm)
- ✓ Locked to prevent pressure change – tamperproof
- ✓ Competitively priced
- ✓ Increases tool service life

## Technical data

Max. inlet pressure:	12 bar
Outlet pressure (preset):	2... 8 bar
Flow:	350 NI/min
Connection:	1/4" BSP/NPT
Temperature range:	-20°C to 60°C
Weight:	15g

## Applications

Pneumatic air guns	Spray guns
Workshop air lines	Pneumatic tools
General pneumatic applications	

\*Dimensions see datasheet on website – [protect-air.com](http://protect-air.com)
