DEDALUS UNRIVALED AGILITY FOR CONFINED SPACES

The characteristics of Dieci products can be summarised in three concepts that have always been the hallmark of each vehicle: **technology**, **reliability** and **durability**.

We work every day to evolve our machines, adopting the best solutions based on research, advice and experiences with our customers. Offering a range of telehandlers designed to suit Australia's diverse environments.

Precision movements, manoeuvrability, maximum power at the wheels and boom, sound proofing, three steering modes including 2WS, 4WS and crab steering, as well as the intelligently designed control layout, makes the Dedalus efficient, intuitive and comfortable to use.

The **Dedalus** has been designed to cater to a wide range of equipment necessary for executing diverse tasks on a construction site. Its adaptability and robust engineering allow it to handle everything from lifting and transporting heavy materials to precision operations. This versatility not only enhances efficiency but also reduces the need for multiple specialised machines, making the Dedalus an indispensable asset for any construction project.

ABSOLUTE COMFORT: ITALIAN DESIGN AND STYLE

Dieci telehandlers have always been a combination of **comfort** and **functionality** which makes us stand out all over the world.

Versatile Applications

Ideal for various tasks where strength and agility are crucial. Compact, rugged, and dynamic, the Dedalus performs exceptionally well in tight spaces and demanding conditions.

Hydrostatic Transmission

Complete with a servo controlled 2 speed gear box and constantly varying hydrostatic drive, which guarantees top-end speed and low-end torque.

Top Level Performance

Superior performance, thanks to the boom which achieves the perfect balance between size and strength. Incredibly responsive and totally free of any uncontrolled movement thanks to the central position of the boom.

Unparalleled Manoeuvrability

Distinguished by its fluid movement and precise control, the Dedalus excels in tasks that require smooth operation and accurate handling in confined spaces, thanks to its compact design.

Maximum Safety

The ROPS-FOPS approved cab is designed with a safety cell to provide maximum safety to the operator at all times. Dieci telehandlers comply with AS1418.19 / 10896.1.

Deadman sensor, combined with operator presence sensor in the seat, prevents accidental operation.

The **Load Limiter Device** analyses vehicle stability in real time and inhibits any aggravating movements when the pre-set safety limits are reached.

Dedalus 30.7 TCL

6.35m

Max Reach

3,000kg

Max Capacity

98hp / 73.4kW

Nominal Power

Reversible Fan

The engine cooling system utilises a reversible fan to blow any dust and fibres away from the radiator.

Advanced Telescopic Boom

Made of high resistance steel, while load sensing and flow sharing distributors allow for more simultaneous movements during operation.

Inching Pedal

An essential control that allows travel speed to momentarily slow down or come to a stop while still offering maximum power to boom functions to increase precision and productivity for delicate operations.

Perfect Climate

Equipped with an integrated electric driver's window, standard heater and a semi-automatic air conditioning system with six outlet vents, this setup allows perfect air circulation inside the cabin for maximum operator comfort.

Panoramic Views

The large, curved windows of the cab offer a complete 360° outside view with uninterrupted visibility.

4-in-1 Joystick

The boom can be fully operated by the hydraulic control distributor-single joystick with proportional and simultaneous controls which also incorporates FNR, for easier and more practical direction control.

115L Hydraulic Flow Rate

The 115lpm hydraulic flow maximises manoeuvrability in all applications.

Comfort & Ease of Access

With soundproofing, an adjustable steering wheel (height and depth), storage compartments and various accessories such as the air suspension seat, enable operation in total comfort.
