Integrated oil-free compressor; Max. operating pressure of 4 bar

Technical Data

Operating pressure: 3.0–4.0 bar

Total weight: 55 kg

Dimensions: 355mm × 690mm × 895mm

Warranty: 2 years

Options: Curing light

Pro-Vac Uniquely convenient flexibility

The mobile and fully stand-alone suction cart PRO-VAC supports you with unlimited performance, cost savings and full flexibility in everyday dental practice and clinic planning.

The PRO-VAC makes your work easier with a three-way syringe and an impressive suction capacity (300 l/min) that outperforms many fixed units. Despite outstanding performance, the oil-free compressor and integrated suction are very quiet and reliable. Dental clinic workflows are simplified by the already integrated amalgam separator. The compact design of the PRO-VAC helps the dental team to efficiently maintain optimal hygiene. Maximum flexibility combined with highest performance and comfort.

-  Continuous Operation
