

# CASHLESS LAUNDRY MACHINES

## CREDIT/DEBIT CARD READERS

### SAVE TIME & MONEY

- Prevent vandalism and damage to machines from coin thieves
- Never waste time collecting and counting coins again
- Don't lose customers because they don't carry coins – use payment methods your customers readily have on hand
- Card payments usually equal higher spend and greater profit
- Flexible pricing lets you charge any dollar/cents amount

### DURABLE DESIGN

- Water and chemical proof
- Suitable for indoor and outdoor use
- Fully compliant with all Australian banking, payment and security regulations – full PCI and EMV Level 1 certified solution

### ALL MAJOR PAYMENT TYPES

- All major payment types accepted – credit/debit cards, MasterCard, Visa, Apple Pay, Android Pay or any other NFC (Contactless) options
- Customers can swipe, insert or tap their payment

### EASY SETUP

- Our washers and dryers are pre-fitted with everything needed, including reader, modem with its own sim card and mini aerial
- No extra power, WiFi, phone lines or antennas are needed – everything is built into the machine
- Bolt-on kits are available for simple retrofit on older machines

### ONLINE REPORTING

- Full accountability with online income reports in real-time
- View transaction reports securely online
- Income and settlement reporting, cycle information and more
