wrightway2MT® INDUSTRIAL BIN TIPPER

One machine - custom lifts to 425 kgs:
cradle automatically holds an 1100 or 660 4-wheeled bin,
or up to 2 standards wheelie bins ... no manual adjustment

STANDARD MACHINE FEATURES:

- Lift & empty up to 425 kg;
- Regulated lowering by gravity: pressure relief valve prevents over-loading;
- Dedicated fork-lift pockets for safe relocation;
- Solid foot guarding at base;
- 12 month warranty (machine and battery);
- Spare parts & diagnostic assistance from manufacturer beyond the term of the Warranty;
- Detailed Operator Manual.

OPERATOR SAFETY:

- Operator, Control Panel and Safe Operating Procedure located at the front of machine, away from skip;
- Emergency Stop button;
- Handle bars at either side of machine for safe relocation by 2 operators;
- Doors open wide: safe access for loading and unloading of cradle;
- Braked castors at front, wind-down brake levers at rear to ensure stability during the lift/empty operation;
- Cradle suits 660 and 1100 litre 4-wheeled bins + standard wheelie bins: no manual adjustment necessary.

ADVANCED ELECTRONICS:

- Integrated interlock safety system (mechanism fully protected) (Category 3 Optional);
- Electronic sensors ensure doors CANNOT BE OPENED unless cradle is on the ground;
- Battery charger indicator LED;
- Control Box access by Authorised Technicians only;
- Electronic and Manual over-ride to open doors (Auth Techs only).

wrightway2MT INDUSTRIAL WILL NOT OPERATE UNLESS:

- both doors are closed,
- the cradle is at ground level,
- & electronic sensors are aligned.
