

HYDROCARBON LIQUIDS SAMPLING SYSTEMS

ABOUT US

Since 1990, Haldatec has been providing products and services to the Oil, Gas and related industries in Australia, Pakistan, Singapore, Papua New Guinea, India and New Zealand.

ENPRO

Our house product label, EnPro, has been developed to complement our core business and has been driven by customer needs. Our comprehensive range includes innovative designs, adaptations and applications introduced to solve problems for our customers.

STANDARDS

To ensure we provide the best possible support for our customers and suppliers, we have certification to ISO9001:2015.

EnPro Hydrocarbon Liquids Sampling Systems are designed specifically for a customer's requirements and to comply with various ISO and API standards. Our capability for system integration into LACT metering packages, delivered throughout South East Asia, has given us a reputation as a company that can deliver product, performance, quality and value.

SYSTEM OPTIONS

Skid based or panel mounted enclosures are available in both stainless steel or GRP (fiberglass). Pipework can also be fabricated to the required standards.

An important consideration is the use of a mixing device to ensure the liquids are properly mixed prior to a sample being taken.

Both stabilised and destabilised crude can be customised to requirements and standards.

COLLECTION SYSTEMS

Stabilised crude oil sample collection enclosure for Swift Energy N.Z.

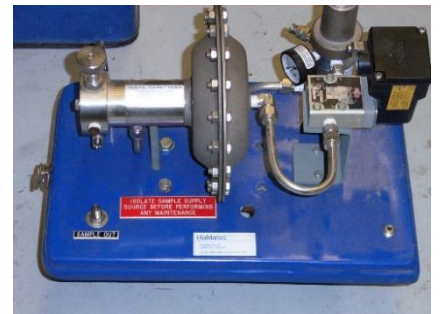

Stabilised crude oil collection skid - PNG

Condensate (unstabilised) sample collection skid Thailand

Heated sample cylinder enclosure. 6 cylinders IEC Ex Certified components

A grab sampler mounted in a GRP enclosure for Condensate

A pitot probe can be utilised to extract the sample if required, then sampled using a remote style sampler
