

The Quicklock Bevel Helical Gearbox was especially designed to meet the modern quarry market needs with its unique features, giving ease of maintenance and reliable service.

Designed to tackle the shortcomings of current designs such as ...No shaft key - Parallel bores - Limited shaft options - No imperial shafts - Hard to service or no internal backstop.

The new Quicklock Bevel Helical Gearbox design has stood up to these challenges and conquered them, creating the Ultimate Conveyor Gearbox.

ULTIMATE CONVEYOR GEARBOX
