

Ergo Medical Stool

A versatile stool with a slip-resistant polyurethane seat and single lever mechanism.

Capabilities

- Seat pan diameter= 400mm
- Seat height = 570-760mm
- 120kg weight limit
- Minor assembly required

Features

- Ring ergonomic mechanism for height adjustability
- Black nylon star or Polished Alloy base
- Upholstered black vinyl cover contoured foam seat

The Ergo Medical Stool is a larger sized round stool with a padded vinyl seat, customisable for a variety of work tasks and environments.

The Ergo Stool features vinyl covered foam padding with the choice of either a reinforced nylon base or an alloy prestige base. The convenient lever mechanism offers easy height adjustment.

Where compatible with selected options, Ergo stools are fitted with a 'wine glass' inverse segmented gas lift cover to minimise dust.

The Ergo stool is suitable for medical and dental surgeries, as well as for many industrial and production workplaces.

Options

- Soft castors for hard floors
- Glides - feet to keep stool stationary
- Extended warranty
