

Contour Deluxe

A transport trolley with glide away dropsides for zero transfer gap.

Key Benefits

Supercharged: Keep things moving with long-life, cordless, fast-charge battery packs that work all day.

Custom quality: Manufactured in Australia with speed, quality, and care, plus customisation capability.

Longest warranty: Peace of mind with a lifetime of local support, easy maintenance, and fast guaranteed parts.

Application

Ideal for Day Surgery, Recovery, Transit Lounge & Cardiac.

Why Buy?

Safely transfer patients with a zero transfer gap created by siderails that glide down under the top, leaving no obstruction on the side of the stretcher. Gas assistance ensures they are always light and easy for the operator and there is quick access with release catches on both ends.

Provide a greater level of support with these extra length siderails featuring horizontal bars and reduced gaps. Built for a lifetime, the fully welded and polished stainless steel construction leaves no risk of coatings to chip and rust, creating infection hazards or strength reduction.

Contour Deluxe

Hydraulic option

Non-powered, manually operated trolley option.

In some cases, such as small or remote facilities, or large high pressure departments, hydraulically operated trolleys may be more beneficial, with simple mechanical servicing and without the requirement of regular charging or power cords.

Excellent high height

Preserve your back and raise a patient up to your best working height. Lifting the platform height up to 830mm (plus an extra 100mm for the mattress pad thickness), helps you to examine and treat your patient without having to stoop over, ensuring easy access and less stress. The backrest travels from 0 to 85 degrees with emergency CPR quick release.

Easy customisation

Increase top width, change colours, mattress and dropside styles. Whether it is a specialised medical clinic or a department in a large hospital, every single customer has their own unique requirements to be able to function safely and efficiently. This stretcher has a longer, 7 riser PVC upgrade dropside.

Ultra-low height

Very safe and easy for patients to get on and off. The 400mm low platform height of this table takes away the requirement to use step stools or unnecessary heavy lifting. Sit and position your patient comfortably and then raise them to the desired work height with the touch of a button.

Head and foot tilt

A generous 15 degrees top tilt both directions. Position a patient how you need them or quickly lower their head down (and feet up) in an emergency.

Specifications

Overall Size: 2135 x 815mm (965mm wide option).

Patient Surface: 1900 x 680mm (830mm wide option).

Electric Height Range: 570 - 940mm.

Hydraulic Height Range: 630 - 960mm.

SWL: 300kg.

Castor Size: 200mm castors and Ezi-Trak 5th wheel steering.

Includes: Full length gas assisted siderails that are fully welded stainless steel, emergency CPR backrest release, X-ray subtop option.
